RESPONSE TO OFFICE ACTION

TO THE COMMISSIONER OF PATENTS:

AMENDMENT AND RESPONSE

In the claims:

Please cancel Claims 1-30. ✓

Please add the following new claims:

RECEIVED
FEB 20 2003
GROUP 3600

31. A method for verifying vehicle parking comprising:
- wirelessly transmitting from a computer-based hand-held parking attendant device location information of the parking attendant device to a server;
 - determining at the server if any vehicles have registered for parking within a predefined distance from the parking attendant device based on a comparison of the parking attendant location information and location information associated with previously registered vehicles;
 - sending the results of the determination to the parking attendant device; and
 - outputting at least a portion of the sent results at the parking attendant device, thereby allowing verification of vehicle parking.
32. The method of Claim 31, further comprising:
- wirelessly transmitting vehicle information and vehicle location information from a vehicle to the server; and
 - registering vehicles for parking based on the transmitted vehicle information and vehicle location information.
33. The method of Claim 32, wherein registering includes automatically completing a payment transaction.
